

CHAIN OF CUSTODY POLICY

Millicent Mill

Policy Statement

Kimberly-Clark Australia Pty Limited Millicent Mill manufactures Kleenex®, Scott®, Viva®, Wypall®/AIRFLEX* and private label tissues principally for the Australian and New Zealand markets.

The Millicent Mill will enhance the competitive advantage of Kimberly-Clark Australia by locally manufacturing product that is made from sustainably sourced fibre.

Policy Comment

The Mills' Chain of Custody Systems was developed to show commitment to sourcing raw materials from sustainable forest management through conformity to the FSC-STD-40-004 & AS4707 standards. In accordance with this system, the mill will:

1. Procure wood fibre from sources with FSC® (Certified/ Controlled Wood) Certification and/or PEFC® (Certified/ Controlled Sources).
2. Require these fibre sources to maintain their forestry certifications.
3. Continually review, evaluate, and improve the effectiveness of the Chain of Custody system.
4. Comply to related environmental laws and regulations.
5. Manage employees according to the current "Production Enterprise Agreement".

Through our commitment, the Millicent Mill will successfully contribute to the success of Kimberly-Clark Australia by meeting the expectations of our customer/shopper/user and shareholders.
